

If you could see into the future, what would you want to find out?

I would want to find out what my kids, grandkids and the great grandkids are doing with their lives. What their jobs are, if they are married, do they have kids and are they are happy.

Since there are always so may changes in technology I would like to know some of the inventions of the future. Hopefully all women have robots to do their cleaning. Right?

Will there be medical advances to totally cure heart disease, cancer, Alzheimer's and Covid and the many other diseases.

Will our country still be so at unrest or will we someday get a president who will please the majority of the people. Hope this happens in our lifetime.

I would also like to know how my younger friends who gave me a bad time about being "OLD" are handling their own "Golden
