

If you could have as much money as you wanted, what would you do with it?

I would probably start by buying an ATV to drive around in since it seems to be the fad right now. I am too old to start buying boats and campers. Maybe I would also get a convertible.

I would also do some house remodeling or build a new home that would be more convenient for older and handicapped people.

Then I would give my children, grandchildren and great grandchildren enough to make sure they all had beautiful homes and nice cars. I would not give them so so much that they felt they didn't need to work.

I would take our entire family on yearly vacations.

I would give some to my church and some to different charities.
