

What was your role in the military?

While I was in college at Iowa State in Ames I joined the ROTC program. The Reserve Officers Training Corp. I went to meeting while in college.

When no longer in school I went to meeting in Waterloo at night twice a month and camp two weeks every summer. I was the company clerk.

We also had other military training mostly while at summer camp.

I was supposed to go for six months of active duty but was never called for that.

At that time you could be drafted into the service if you were needed.

I was in the reserves for six years and was never called to active duty. Shortly after I was discharged my unit was called for six

Robert Fenneman

months of training in Arizona. When they honor veterans I never feel that I deserve to be honored since I never went beyond Camp McCoy in Wisconsin.
